PREMIER ENTRANCE PREPARATION PROGRAMME

📍 KOZHIKODE | THRISSUR | MALAPPURAM

ABOUT US

Incubation is a non-governmental organisation run by a group of young and vibrant youths from various premier institutions in India. It started the journey in the year 2014 as a student initiative and registered as charitable society.

Incubation believes that education is the key to development in all spheres. However, we also recognise the lack of preparation that is faced by the talented , budding students which is essential for progressing the ladder of education.

This is why we devised our project - Premier Entrance Preparation Programme (PEPP) for students to prepare for the very important entrance examinations they have to face to pursue higher education in India, which can affect the future prospects of the student greatly. Incubation provides continuous preparation for various competitive examinations.

We aim to provide quality and quantity through our programme, and ensure that all the students gain the skills required to excel in their life. Academic exposure and frequent follow-up as well as practice and revision is just some of the services provided by PEPP.
